

Got Soccer?

For the rest of the world it's football. In the USA we call it soccer, and the growing interest and participation in the sport cannot be ignored.

Soccer is "the sport" and ABC is blazing new ground with our "Kicker" soccer machine system. The Kicker system is based on ABC's renowned AP-1000 baseball pitching machine so you can expect the same great performance and reliability.

Just like ABC's fully automated baseball and softball batting cages, the Kicker cages feature a fully automated ball retrieval system and utilize ABC's user friendly electronics.

ABC also gives you the same outstanding customer service available for our batting cage equipment. We have standard construction blueprints for 1 thru 5 kicker stations, complete with electrical requirements, layouts, sections, elevations, and all the details needed to construct a Kicker Cage. ABC can also provide blueprints for your custom design.

Belt driven variable speed drive system.

Same tough, rugged, reliable frame and powder coated for weather resistance.

Specially designed Urethane Kicker wheels.
